Mission Statement

The Alaska Department of Corrections enhances the safety of our communities. We provide secure confinement, reformatory programs, and a process of supervised community reintegration.

Commissioner's Letter

The Mission of the Department of Corrections is to enhance the safety of our communities while providing secure confinement, reformative programs, and a process of supervised community reintegration

I am pleased to make this profile available on line. This report is based on our best information and serves as a snapshot of a typical day. Data comes from our Alaska Corrections Offender Management System (ACOMS), and is meant to give a general summary of Alaska's offender population. ACOMS is our new database and went live in May of 2010. It is our expectation that this new system will provide even better data than before.

The 2011 Offender Profile – which encompasses many hours of research and calculation on the part of department staff – serves as a valuable tool for our department in the successful accomplishment of our mission.

Alaska Offender Profile Supplemental

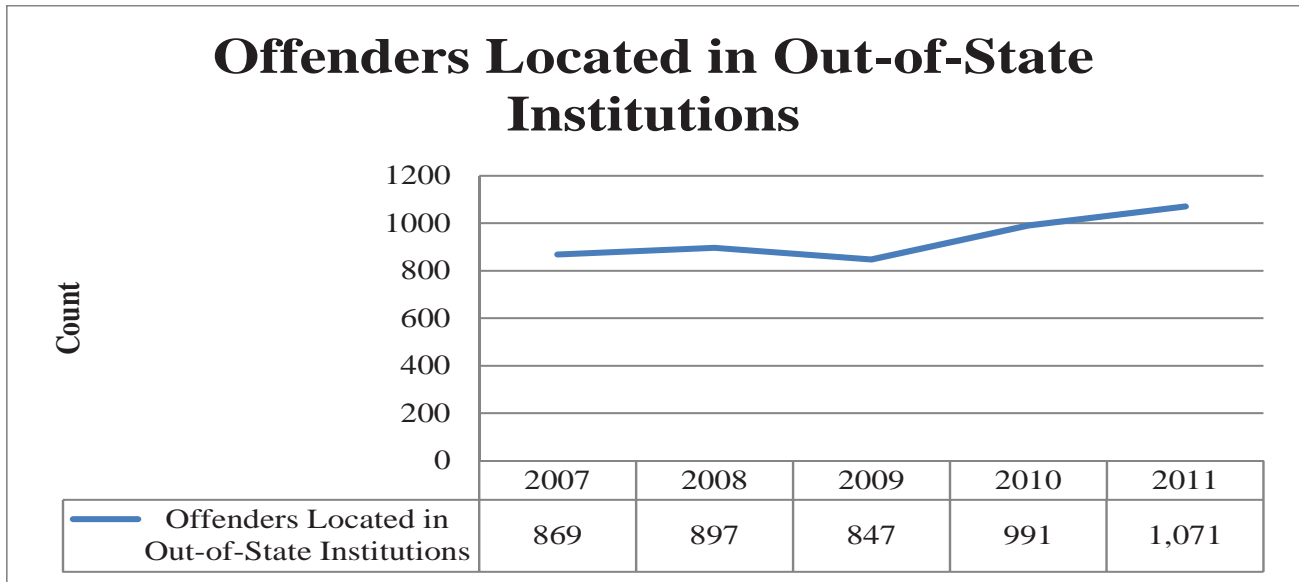

Notable Trends in Offender Demographics

The Changing Face of Corrections

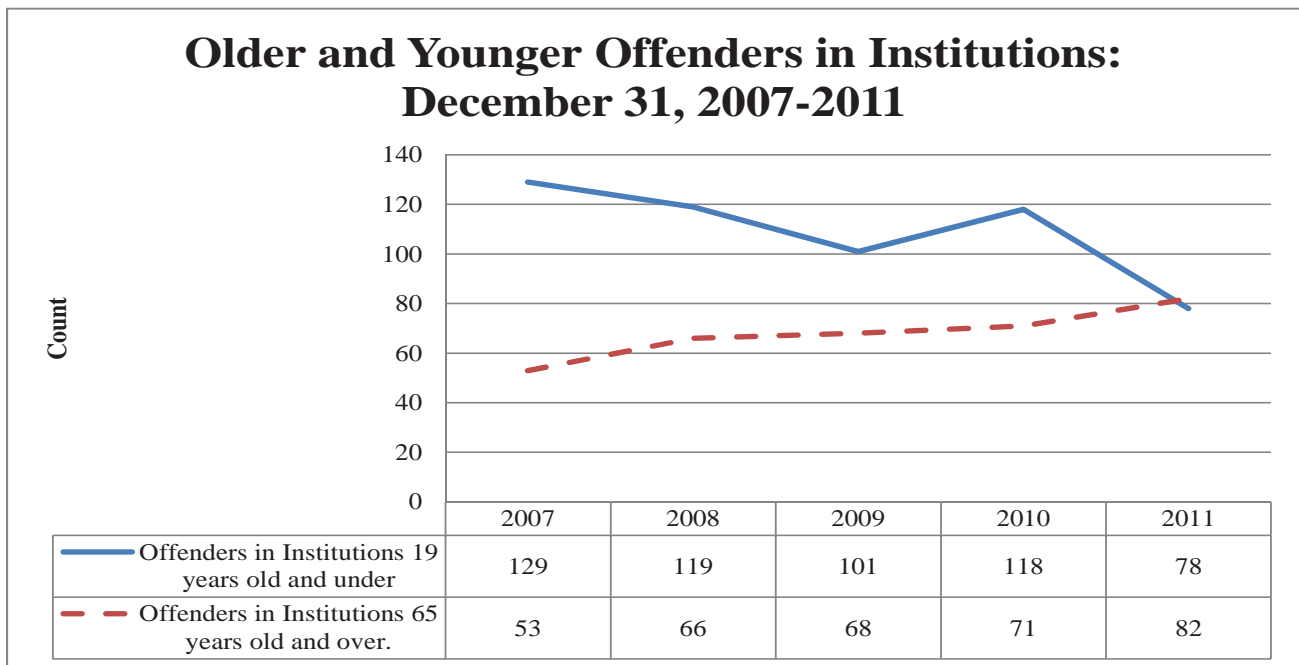

Notes:

The following data contains notable trends in Alaska's Offender population.

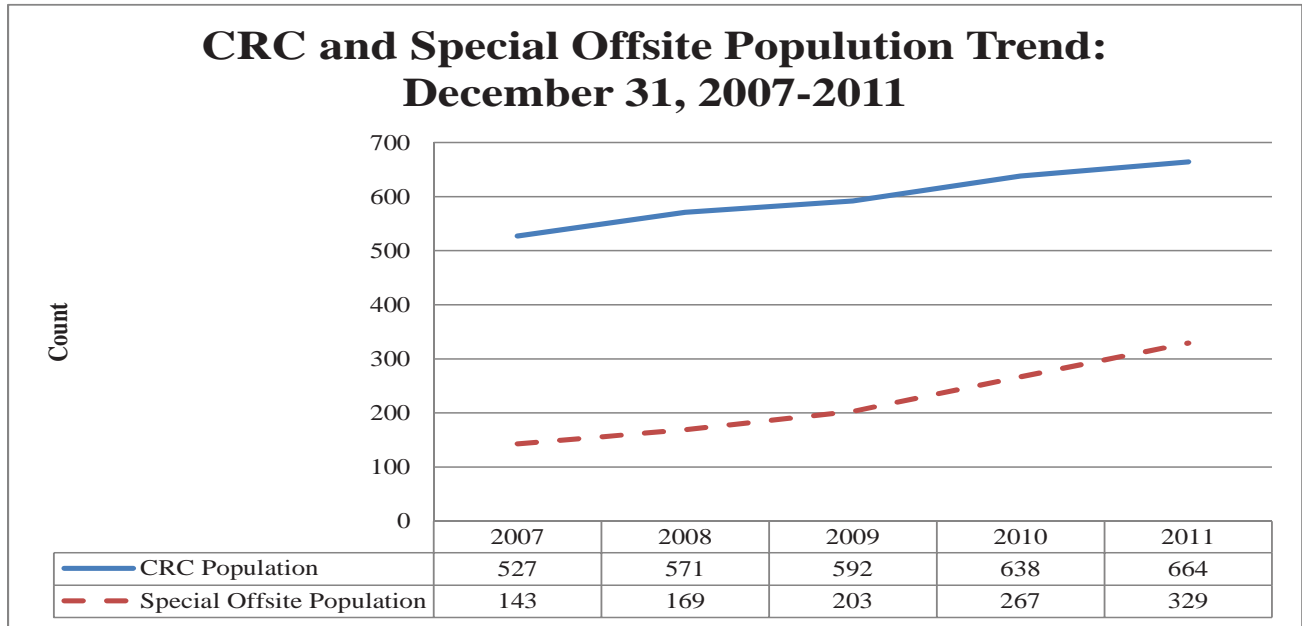

The number of offenders located out of state continues to rise. In 2011, the number of offenders located out of state increased nearly eight percent (7.97%). Since 2007, the out of state offender population has increased slightly more than 23 percent (23.24%).

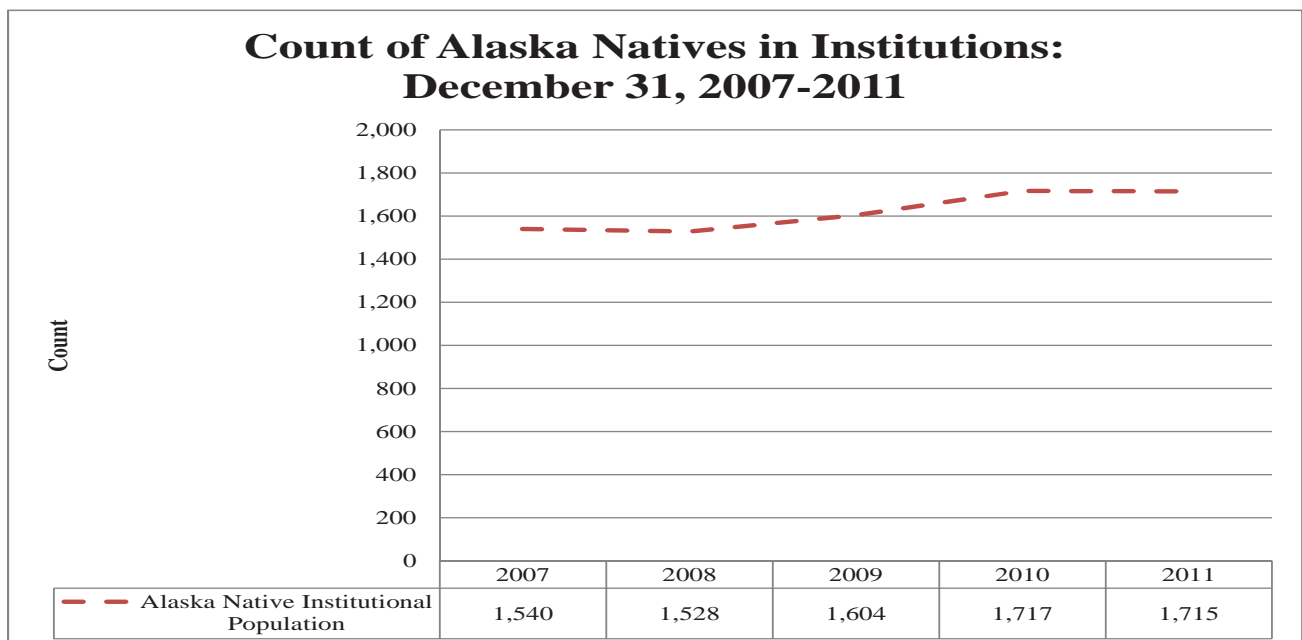

In 2011, for the first time ever, there were more offenders in Alaska’s correctional institutions who were age 65 and over than there were offenders aged 19 and under.

The number of offenders located in Community Residential Centers and Special Offsite Programs continues to grow faster than the institutional population. The number of offenders at these locations increased 10.94% since 2010. Since 2007, the population has increased over 48 percent (48.21%). Meanwhile, the institutional population increased 1.35% from 2010 to 2011.

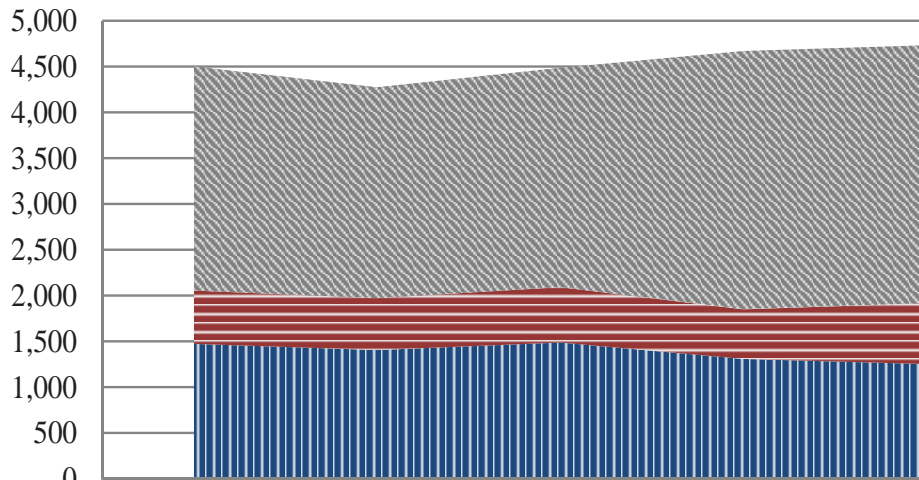

While all other race groups experienced an increase in institutional population, the number of Alaska Natives in institutions decreased in 2011, reversing a three-year trend.

The number of Offenders incarcerated in institutions as a result of violent crimes grew slightly in 2011. In 2010, violent offenders in institutions made up 39.69% of the population. In 2011, violent offenders were 40.47% of the institutional population. Even though the number of violent offenders grew slightly in 2011, over the last five years, the number of violent offenders incarcerated in Alaska’s institutions has gone down almost seven percent (6.81%).
