	Chapter: Intake Classification and Supervision		Subject: Early Termination of Supervision

Policy

Probationers may be referred to the court and recommended for early termination of supervision, unsupervised probation, or open probation to the court after successful completion of six (6) months at the minimum supervision level and after satisfying all other conditions and court orders. Parolees may be referred to the Parole Board and may be recommended for early termination of supervision after the parolee has successfully completed two years of parole, or earlier for mandatory parolees pursuant to AS 33.16.210.

Procedures

- A. Consideration for Early Termination of Supervision. Offenders should be recommended for early termination of supervision, when the offender:
 1. Has been classified at the minimum supervision level for at least six (6) months;
 2. Has not been convicted of a new felony or misdemeanor crime during the term of minimum supervision;
 3. Does not have any pending criminal matters;
 4. Has complied with all conditions of supervision and orders of the court; and
 5. In the case of a parolee, has completed two years of supervision except as noted in AS 33.16.210 (b).
- B. Granting Early Termination. When the offender has satisfied the criteria for early termination of supervision as set forth in this policy, the probation officer shall, if satisfied the public safety will not be threatened, submit a request for early termination of supervision to the court or to the Parole Board. The probation officer shall continue to supervise the offender until termination of supervision is granted. The request for early termination of probation supervision must be made to the sentencing court, notwithstanding the judicial district the offender's case may be assigned.
