# Audit Findings

## Audit Narrative

The Prison Rape Elimination Act (PREA) Audit for the Seaside Center which is owned and operated by The GEO Group, Inc. (GEO) was conducted on September 24-26, 2018. This was the first Department of Justice (DOJ) PREA audit for this facility. The Seaside Center contracts with the Alaska Department of Corrections. The PREA Audit was coordinated through GEO and The Nakamoto Group, Inc. and DOJ Certified PREA Auditor David Andraska was assigned to conduct the audit. A line of communication was developed between the GEO PREA Coordinator, the GEO Regional Program Performance Manager and the auditor.

The auditor's pre-audit preparations consisted of a thorough review of all documentation and materials submitted by the facility, including the Pre-Audit Questionnaire (PAQ). The documentation reviewed by the auditor included both agency and facility policies, procedures, forms, posters, pamphlets, brochures, handbooks, educational materials, training curriculums, organizational charts, and other PREA related materials the facility provided to demonstrate compliance with each PREA standard. The auditor contacted Just Detention International (JDI) about any information previously submitted by residents and reviewed the GEO website. Prior to the on-site audit, GEO conducts a mock audit of the facility to prepare for the PREA audit. Results of the mock audit were discussed with the auditor prior to the start of the audit. All recommendations per the mock audit were implemented prior to the on-site audit.

The audit began on Monday afternoon, September 24, 2018, with a tour of the facility. The entrance meeting was held on Tuesday morning, September 25, 2018, with the Facility Director, the GEO Regional Program Performance Manager and the GEO Alaska Senior Area Manager. The auditor discussed any concerns regarding the audit process and finalized the facility interview schedule. The site visit consisted of conducting a full tour of the facility, a thorough review of documentation, and formal and informal interviews with staff and residents. Areas visited during the tour included the main lobby, all resident housing areas, intake, the laundry, the kitchen, recreation areas, visiting room, all program areas and the monitoring station. During the tour, the auditor reviewed staffing; logs; physical plant; sight lines; camera coverage; and tested the inmate phone system for reporting PREA allegations and for requesting emotional support services. PREA posters and the notification of the PREA audit visit were observed displayed throughout all areas accessible to residents. The notification of the PREA audit visit was documented as posted on August 9, 2018. A photograph of the posted notice was provided to the auditor.

The Seaside Center has 14 staff that may have contact with residents. The security staff is staff assigned to either two-12 hour or three-eight hour shifts, depending on vacancies and availability. The auditor conducted interviews with all security staff working during the on-site audit. Non-security specialized and management staff and volunteers were also interviewed. There were no contractors available to interview, during the on-site audit, but one contractor's training records were reviewed. The Agency Head and PREA Coordinator interviews had previously been conducted by this auditor and were utilized as part of this audit. The auditor

contracted the PREA Coordinator to ascertain whether there were any changes to the previous responses. A total of 14 GEO corporate and facility staff and four volunteers were interviewed. All staff members are trained as first responders and those questioned were well versed in their areas of responsibility, when responding to PREA allegations.

On the first day of the audit, there were 32 residents (27 males and five females). Twelve residents (eight males and four females) were interviewed. Nine residents were randomly selected, and three residents were in the targeted group. These included one resident that self-identified as being lesbian, gay or bisexual and three residents who had reported sexual victimization during risk screening. The facility did not have any other residents in the target group. No residents contacted the auditor prior to the audit. All residents interviewed stated they felt safe and demonstrated a good understanding of the PREA and reporting options.

There were no allegations of sexual abuse or harassment reported by residents in the past twelve months. One prior year case was closed during this audit period and the investigation file was reviewed. The allegation was staff-on-resident sexual abuse which was investigated by the Nome Police Department and determined to be unsubstantiated. There were no substantiated allegations that were referred for criminal prosecution.

The auditor examined a random sampling of personnel files and staff, volunteer and contractor training files that are maintained at the facility. New hires, volunteers and contractors are not allowed entrance into the facility until a thorough background check is completed. The training records were complete and included written documentation that staff, contractors, and volunteers received the required PREA training. The auditor viewed the signed "Training Acknowledgement Form", documenting that all staff understood the PREA training received. The auditor selected and examined a random sample of resident case files and reviewed documentation, indicating by signature, the residents received and understood the PREA information. The auditor reviewed the documentation associated with initial risk screenings and reassessments and observed the intake process.

## Facility Characteristics

The Seaside Center is located at 108 Front Street in Nome, Alaska. The Seaside Center opened in 1999 and has operated continuously since that time. The original facility was replaced in 2016 as GEO purchased and remodeled an existing building on Front Street. The new facility was designed to comply with PREA standards. The facility is a wooden 3 story building with a design capacity of 62 beds, although at this time, only 50 beds are contracted. A 20-bed female dorm, monitor station, lobby, kitchen and dining area is located on the first floor. The top floor has two-10 bed and one-22 bed dorms for males and administration offices. The basement level has multi-purpose classrooms, an indoor recreation area, male dayroom, laundry room, attorney visitation room and library. Male and female residents are always separated, and each has their own dayroom, dining room, group room and visiting area.

The facility is currently under contract with the State of Alaska Department of Corrections (Client). The Seaside Center provides temporary housing, monitoring and transitional services

for 50 adult male and female residents, who are confined misdemeanor offenders, pre-trial/pre-sentenced community placement, jail diversion, convicted felons and misdemeanant furlough cases. Residents receive help transitioning from a life of crime to one of responsibility and productivity. This process includes teaching life skills, providing job readiness training, substance abuse counseling and culturally relevant education. Newly placed residents are subject to a highly structured environment. As treatment and rehabilitation goals are achieved, offenders earn the privilege of having decreased structure. Security measures include 24-hour custodial supervision, closed circuit surveillance cameras and frequent census checks. The Center has a close working relationship with the Native Corporations, City of Nome, U.S. Park Service and other state agencies.

## Summary of Audit Findings

When the on-site audit was completed, an exit meeting was held with the Facility Director, GEO Regional Program Performance Manager and other staff to discuss the audit findings. The auditor had been provided with extensive files prior to the audit for review. While at the facility, the auditor reviewed a sufficient sampling of records, based on the size of the facility, which included resident case records, training records, an investigative report and additional program information and documents. The auditor interviewed the required number of staff and residents, based on the population, and all were knowledgeable regarding the PREA. The facility staff members were found to be cooperative and professional. All areas of the facility were clean and well maintained. The auditor also explained the audit report process. The auditor thanked the Facility Director and staff for their hard work, dedication and commitment in complying with the PREA standards.

## Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

GEO policy 5.1.2-A, Sexually Abusive Behavior Prevention and Intervention Program (PREA) for Adult Prison and Jail and Adult Community Confinement Facilities, Seaside Center Policy 2015-1, PREA Staffing and Facility Requirements, Seaside Center Organization chart and the GEO PREA Organization chart were reviewed and address the requirements of this standard. The written policies mandate zero tolerance towards all forms of sexual abuse and sexual harassment and outline the agency's and facility's approach to preventing, detecting and responding to sexual abuse and sexual harassment. The policies include definitions of prohibited behaviors regarding sexual assault and sexual harassment of residents with sanctions for those found to have participated in these prohibited behaviors.

GEO employs an upper-level, agency-wide PREA Coordinator who is a Director in the Contract Compliance Division for GEO. She is very knowledgeable of PREA standards and has the authority to develop, implement and oversee PREA compliance. She is very active in coordinating the PREA, sending updates to facilities, especially as Frequently Asked Questions are posted on the PREA website. She conducts training and meetings to keep PREA Compliance Managers up-to-date on any changes and best practices. She is

consistently looking for ways to improve GEO's PREA program. The GEO organization chart demonstrates the PREA Coordinator is in a position of authority. She indirectly supervises 109 PREA Compliance Managers through three Regional Coordinators, one Community Corrections Coordinator and one Juvenile Coordinator. She often goes directly to the Compliance Managers to coordinate changes, provide updates and conduct training, as well travel to be on-site during audits.

Seaside Center's PREA Compliance Manager is the Facility Director. He was very knowledgeable of PREA standards and is actively involved in PREA activities at the facility. Per interviews with the PREA Coordinator and PREA Compliance Manager, both stated they have sufficient time and authority to manage their PREA-related responsibilities.

Policies identify the Agency's strategies and responsibilities to detect, reduce and prevent sexual abuse and sexual harassment of residents. During interviews with the selection of random staff and specialty staff, each confirmed receiving PREA training and was knowledgeable of their responsibilities. PREA training is provided to staff during initial training and annually as outlined in policy. Those individuals interviewed shared their understanding of the agency's zero tolerance toward sexual abuse and sexual harassment within the guidelines of the PREA standards. PREA posters and literature describing the agency's zero tolerance toward sexual abuse and sexual harassment were observed by the auditor to be strategically located and accessible throughout the facility for staff and resident awareness.

Based on the review of established policies and procedures, staff PREA training, resident PREA education and information, interviews with staff and residents, observation of bulletin boards, posters and PREA material, during the tour of the facility, the designation of an Agency- wide PREA Coordinator, as well as regional and facility PREA Compliance Managers, it is apparent that GEO and Seaside Center are committed to zero tolerance toward sexual abuse and sexual harassment. Their efforts to comply with the PREA standards and create a PREA compliant culture, exceeds the requirements for Standard 115.211.

GEO ensures each institution develops, documents and makes its best efforts to comply, on a regular basis, with a staffing plan that provides for adequate levels of staffing and, where applicable, video monitoring, to protect residents against sexual abuse by monitoring and

reviewing the staffing plans. GEO, in collaboration with the client, determines the staffing plan and the client also monitors compliance with the plan. GEO Policy 5.1.2-A and Seaside Center Policy 2015-1 establish procedures to develop and monitor staffing plans and use the criteria found in Standard 115.13 (a), to include generally accepted correctional practices; any judicial findings of inadequacy; any findings of inadequacy from Federal investigative agencies; any findings of inadequacy from internal or external oversight bodies; all components of the institution's physical plant (including "blind-spots" or areas where staff or residents may be isolated); composition of the residents population; number and placement of supervisory staff; institution programs occurring on a particular shift; any applicable State or local laws, regulations, or standards; prevalence of substantiated and unsubstantiated incidents of sexual abuse; and other relevant factors to develop and review the staffing plan.

The auditor reviewed the Seaside Center Annual PREA Facility Assessment dated 6/13/17. The PREA facility assessment is reviewed annually by the facility, GEO Corrections Division and the PREA Coordinator. The signature of the PREA Coordinator on the assessment confirmed that this was done in consultation with her. GEO has established a good form to conduct the annual assessment to ensure all eleven criteria are properly reviewed and addressed. The plan follows generally accepted correctional practices. There have been no findings of inadequacy from any external or internal oversight bodies. All components of the facility's physical plant are considered, blind-spots are acknowledged and steps are taken to fix the blind spots. There is a brief description of the resident population and the times programs are occurring. The prevalence of substantiated and unsubstantiated incidents of sexual abuse is also mentioned. The PREA Annual Assessment determines and documents whether adjustments are needed to the staffing plan, the facility's deployment of video monitoring and other monitoring technologies, and whether the resources the facility has available to commit will ensure adherence to the staffing plan. Supervisory personnel conduct weekly count verifications utilizing the security camera surveillance system to ensure staff complete required counts and rounds. Doors to all restricted areas are locked and signage instructing residents they are not allowed to enter the area is visible.

By policy, the facility documents all deviations to the plan and they are reported to GEO. Per the Pre-audit Questionnaire, an interview with the Facility Director and a review of staffing schedules, there were no deviations from the plan, during the audit period. The facility authorizes overtime to fill all positions. The Director reviews posting logs to ensure all posts are properly manned.

Intermediate and higher-level supervisors conduct and document unannounced PREA rounds on all shifts to deter and identify staff sexual abuse and sexual harassment. The unannounced PREA rounds are documented in logs. The binder containing the logs was reviewed by the auditor. As part of the unannounced PREA rounds, supervisors check for opposite gender staff announcing their presence, PREA signage and staff/resident awareness of the PREA. Staff and resident interviews further confirmed unannounced rounds being conducted by supervisors.

Based on a review of policies, PREA unannounced rounds logs, the staffing plan and annual facility assessment, as well as staff and resident interviews, on-site observation of camera

placement and an interview with the Facility Director, Seaside Center is compliant with this standard.

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

GEO Policy 5.1.2.A and Seaside Center Policy 2015-4, Resident Searches, Viewing and Contraband, Guidance in Cross-Gender and Transgender Pat Searches training curriculum and staff training acknowledgements were reviewed and address the requirements of this standard. Staff and resident interviews and direct observation determined the facility does not allow cross-gender viewing and searches. Cross-gender strip searches or cross-gender visual body cavity searches are not conducted at Seaside Center. Additionally, in accordance with established policy, staff members do not search transgender or intersex residents to determine a resident's genital status. The facility provided memorandums stating there were no strip searches or visual body cavity searches conducted and that there was no cross-gender pat down searches conducted.

Based on interviews with staff and residents and personal observation, it was determined residents can shower, perform bodily functions and change clothes without non-medical staff observing their genitalia or buttocks, except in exigent circumstances or when such viewing is incidental to routine cell checks. All residents interviewed stated they could shower, use the toilet and change clothes without being observed by staff of the opposite gender. Interviews with staff and residents and direct observation determined that staff members of the opposite gender announce their presence, when entering a housing area hallway. Additionally, staff members of the opposite gender do not enter a housing area and stand at the doorway. There is signage on all dorm doors instructing staff to announce their presence before entering.

Review of training records and lesson plans demonstrated staff had been trained on how to conduct cross-gender pat-down searches and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. Prior to the audit, training documents were provided to the auditor demonstrating staff had been trained on searches of transgender and intersex residents. Interviews of staff demonstrated staff was trained and knowledgeable of the proper procedures to conduct pat down searches of transgender and intersex residents.

Based on review of policy, documentation and training documents, along with interviews with staff and residents, Seaside Center is compliant with this standard.

GEO policy 5.1.2-A and Seaside Center Policy 2015-2, Intake and Orientation, were reviewed and address the requirement of this standard. The policies ensure residents with disabilities and who are limited English proficient (LEP) have access to PREA information and programs. Seaside Center has taken appropriate steps to ensure that residents who are limited English proficient or disabled have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. GEO has a contract with Language Line Services, Inc., to provide foreign language translation, American and Spanish Sign Language and assistance. The PREA Education Manual for Residents is in English and Yupik. English and Yupik PREA posters are displayed throughout the facility for the visibility of residents, staff and visitors. Staff interviewed and a memo from the Facility Director stated residents are not used as interpreters, when addressing sexual abuse and sexual harassment allegations.

Informational and educational materials for residents with physical and mental disabilities are provided in ways that will enable the resident to understand the GEO zero tolerance policy and related material and be able to make a claim of sexual abuse or sexual harassment, if necessary. For residents who are hearing impaired, the facility has a telecommunication device for the deaf (TTD) machine available. Residents with limited vision are assisted by some of the posters having been printed in larger print. For residents with a mental disability, staff members spend extra time to ensure they understand the PREA basics, to include definitions and reporting information. There were no disabled or LEP residents housed at the facility at the time of the on-site audit.

The review of policies, the PREA Education Manual and posters, resources available and supporting documentation, as well as staff and resident interviews, confirm Seaside Center is in compliance with this standard.

#### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

GEO policy 5.1.2-A and Seaside Center Policy 2015-1 were reviewed and address the requirements of this standard. The policies ensure staff and contractors are not hired or promoted who have engaged in sexual abuse in a prison, jail, lockup, community confinement, juvenile, or other penal type institutions; or who have been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or been civilly or administratively adjudicated to have engaged in sexual activity facilitated by force, overt or implied threats of force, or coercion.

The policies require the facility to consider any incidents of sexual abuse/sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. Seaside Center does not have any contract staff. The auditor reviewed a sample of staff application packets and staff personnel files. Through review of staff records and interview with the Office Support Specialist, it was determined staff and contractors are not hired or promoted who have engaged in sexual abuse in a prison, jail, lockup, community confinement institution, juvenile institution, or other institution; been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or been civilly or administratively adjudicated to have engaged in sexual activity facilitated by force, overt or implied threats of force, or coercion. The documents and interviews also demonstrated GEO and the facility considers incidents of sexual

abuse/sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents.

The policies also require background checks for staff and contractors prior to hiring or enlisting services for a contractor and again every five years. All employees are fingerprinted. Volunteers require a background check before entering the facility and annually, thereafter. In addition, the facility staff shall contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation, during a pending investigation of an allegation of sexual abuse. Interviews with the Office Support Specialist and staff and a review of application packets demonstrated contact with prior institutional employers for information on substantiated allegations of sexual abuse or any resignation, during a pending investigation of an allegation of sexual abuse. Criminal background checks for all potential employees are completed through Aurico, Accurate and the State of Alaska Department of Corrections. The auditor reviewed background check clearance emails for a random sample of employees and volunteers.

Policies state Seaside Center shall ask all applicants and employees who may have contact with residents directly about previous sexual misconduct, as described in PREA Standard 115.17 (a), in written applications or interviews for hiring or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees; and impose upon employees a continuing affirmative duty to disclose any such misconduct. Policy requires information be provided on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work. A review of new employees' files revealed that employees who may have contact with residents directly are asked about previous sexual misconduct, as described in PREA Standard 115.17 (a), in the written application and during interviews. Internal promotion interviews and/or written self-evaluations are conducted as part of reviews of current employees; and a continuing affirmative duty to disclose any such misconduct is imposed upon employees. Policies state material omissions regarding sexual misconduct, or the provision of materially false information, shall be grounds for termination. Policies also state GEO will provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work.

Based on review of policies, documentation and employee personnel files, as well as an interview with the Office Support Specialist, Seaside Center is compliant with this standard.

### Auditor Overall Compliance Determination

**Exceeds Standard** (*Substantially exceeds requirement of standards*)

**Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

**Does Not Meet Standard** (*Requires Corrective Action*)

GEO Policy 5.1.2-A and the Annual Facility Assessment were reviewed and address the requirement of this standard. The policies state, facilities shall consider the effect any new or upgrade design, acquisition, expansion or modification of physical plant or monitoring technology might have on the facility's ability to protect Individuals in a GEO Facility or Program from Sexual Abuse.

GEO responded to a need to replace the old Seaside Center facility which was deteriorating by opting to purchase and renovate an existing building on Front Street. The new facility which opened in February 2016 was designed to comply with PREA standards. The facility is a wooden three-story building with a design capacity of 62 beds. The new facility provides more beds and program space and the ability to keep male and female residents separate is enhanced. The facility is state of the art, with excellent site lines and the newest technology HD cameras. The HD security cameras and overall floor plan design strengthen the safety and security of both staff and residents; thus, improving the program's ability to maintain fidelity to the Prison Rape Elimination Act standards. There is a total of 44 cameras recording 24/7, virtually eliminating any blind spots.

Based on the review of policies and the Annual Facility Assessment, camera placement, tour of the facility and an interview with the Facility Director, Seaside Center exceeds the requirements for Standard 115.218.

#### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

GEO policy 5.1.2.E and Seaside policy 2015-6, Sexually Abusive Behavior Prevention and Intervention Program, were reviewed and address the requirement of this standard. The policy outlines evidence protocols for administrative proceedings and criminal prosecutions; requirements for forensic medical exams; and requirements for obtaining a victim advocate to accompany and support the victim through the forensic examination, investigatory interviews, emotional support, crisis intervention, information and referrals, when requested by the victim. There is a uniform evidence protocol that maximizes the potential for usable physical evidence

for administrative and criminal prosecutions. Personnel interviewed were knowledgeable of the evidence protocols and could explain the protocol for obtaining useable evidence, when a resident alleged sexual abuse. The auditor conducted an interview with a GEO investigator, who had a good understanding of the investigative procedures and responsibilities and evidence protocols. Seaside Center does not house residents under the age of 18.

Norton Sound Health Corporation provides SAFE and SANE services, when necessary, and a MOU has been established. They would provide a forensic exam, if applicable, and provide education and follow-up treatment to the resident. The auditor contacted the Norton Sound Sexual Abuse Response Team (SART), during the on-site audit, and verified that they provide services to the Seaside Center residents.

Seaside Center makes available to the victim a victim advocate from a rape crisis center. The Facility Director and Security Manager are also trained as victim advocates. In the past twelve months, there were no requests for victim advocacy services.

The review of policies and procedures, as well as interviews with the Facility Director, Investigator and a SANE provider, Seaside Center is compliant with this standard.

GEO policy 5.1.2.A, Seaside policy 2015-2, PREA Resident Education Manual, PREA video, Sexual Abuse Awareness Program and PREA Brochures, PREA Resident Reporting Options poster and signed resident acknowledgement forms were reviewed and address the requirements of this standard. Policies require that all residents receive PREA information upon arrival and PREA education within 30 days of intake. During intake, residents are provided information through a PREA Resident Education Manual, available in English and Yupik, that explains the agency's zero tolerance policy regarding sexual abuse and sexual harassment; and how to report such incidents while at Seaside Center. Staff members cover basic PREA information verbally. A PREA video is played during intake. During orientation, they receive additional information which expands on the previous information provided. Residents acknowledge receiving the PREA information and watching the PREA video in writing. Key PREA information is continuously and readily available or visible to residents. PREA posters and brochures are posted throughout the facility in formats accessible to all residents to ensure that key information is continuously and readily available or visible to residents. signed resident training acknowledgements for all current residents while onsite, which demonstrated residents received PREA information upon arrival and acknowledged, in writing, they received the education manual, watched the PREA video and understood the training. The auditor observed the intake processing of two residents. The facility reported that all 362 residents admitted during the past twelve months received training on arrival.

Based on the review of policies and documentation, observation of the intake process and posted brochures and posters, as well as interviews with staff and residents, Seaside Center is compliant with this standard.

GEO policy 5.1.2.A, PREA Specialized Investigation Training Lesson Plan, PREA basic training records, staff signed acknowledgement and Specialized Investigator training certificates were reviewed and address the requirements of this standard. The policies require the facility investigator receive specialized training, in addition to the general education provided to all employees. Seaside Center currently does not have any staff trained in PREA Specialized Investigations. All investigations of allegations received at the Seaside Center are performed by GEO personnel that have been trained in PREA Specialized Investigations and assigned from the regional office in Anchorage. GEO currently has 111 trained investigators.

The GEO PREA Coordinator attended the Moss Group “Train the Trainers Specialized Training and Investigating Sexual Abuse in Corrections Setting” sponsored by the PREA Resource Center. She then tailored the program for GEO investigators and is the instructor for all GEO investigator training. The auditor reviewed the specialized training for investigators and it covered all requirements of the standard, to include techniques for interviewing sexual abuse victims; proper use of Miranda and Garrity warnings; sexual abuse evidence collection in confinement settings; and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. Documentation was reviewed that indicates all investigators have received both the general and specialized investigation PREA training.

Interviews with an investigator and the review of policies, the training lesson plan and records confirm Seaside Center is in compliance with this standard.

#### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

GEO policies 5.1.2.A, Seaside policy 2015-3, Screening/Admission, the PREA Risk Assessment Form and the PREA Vulnerability 30-day Reassessment Questionnaire were reviewed and address the requirements of this standard. The policies require the facility to conduct a screening for risk of sexual victimization and abusiveness within 24 hours of a resident's arrival; a follow-up screening for risk of sexual victimization and abusiveness within a set time period, not to exceed 30 days from the resident's arrival at the facility; and reassessment of a resident's risk level again, when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the resident's risk of sexual victimization or abusiveness.

The Seaside Center uses a standardized screening tool for initial assessments and for the 30-day reassessments. All residents are reassessed within 30 days of arrival. Prior to the audit, the auditor reviewed four examples of resident PREA assessments and the 30-day reassessments, signed by the resident and the staff member completing the forms. The auditor reviewed initial assessments and 30-day reassessments, if applicable, for all current residents at the facility while on-site. The initial screenings are typically completed immediately upon arrival and 30-day reassessments were completed as required. The facility reassesses the resident's risk of victimization or abusiveness by using the reassessment screening tool, which is based on any new information that may have arrived since the resident's arrival, and the resident is asked if they have been sexually threatened or assaulted and if they feel at risk of sexual abuse. A resident's risk level is also reassessed, when warranted due to a referral,

request, incident of sexual abuse, or receipt of additional information that bears on the residents' risk of sexual victimization or abusiveness. The screening instrument is objective in determining if the resident is at risk for victimization or abusiveness.

The auditor observed an intake and use of the resident screening form. The process was done very professionally. Information is provided through asking the resident questions. All the criteria referenced in the standard are on the current form. Staff interviews confirmed appropriate controls have been implemented to ensure that sensitive information is not released and exploited by staff or other residents. Residents are not disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked.

Based on the review of policies, procedures and documentation, observation of the intake process, as well as staff and resident interviews, Seaside Center is compliant with this standard.

Yes  No

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

GEO policy 5.1.2.A and Seaside policy 2015-3 were reviewed and address the requirements of this standard. The policies outline the use of the screening form, to include using the information from the risk screening to determine housing, bed, treatment and program assignments with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive; and making individualized determinations about how to ensure the safety of each resident.

The policies state the agency shall consider on a case-by-case basis whether to assign a transgender or intersex resident to an institution for male or female residents, housing and programming assignments, based on the resident's health and safety, the resident's own views with respect to his or her own safety and whether the placement would present management or security problems. Additionally, the policies require placement and program assignments to be reviewed twice a year for each transgender or intersex resident to review any threats to safety experienced by the resident; transgender and intersex residents be allowed the opportunity to shower separately from other residents; and lesbian, gay, bisexual, transgender, or intersex residents not be placed in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement in a dedicated institution, unit, or wing is established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such residents.

The facility maintains a roster of those who could be at risk of being sexually victimized and those who are at risk of being sexually abusive. The list is one tool used to ensure those who could be sexually victimized are separated from those who could be sexually abusive, when making housing, bed and other classification decisions. There were no transgender residents at the facility during the on-site audit. Transgender and intersex residents would be given the opportunity to shower separately from other residents.

The review of policies, procedures and supporting documentation and interviews with the Facility Director, intake staff, Case Manager and one self-identified LGBTI resident confirm the Seaside Center is compliant with this standard.

Policies require all staff to report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or harassment; and for staff not to reveal any information related to a sexual abuse report to anyone other than to the extent necessary. Seaside Center does not house residents under the age of 18. There were no incidents involving vulnerable adults that required mandatory reporting per State Statutes. Interviews with staff verified staff were aware they must immediately report to the facility's designated staff any knowledge, suspicion, or information regarding an incident of sexual abuse or harassment; and that they are prohibited from revealing information related to a sexual abuse report other than to people authorized to discuss the report.

A review of policies, documentation and the training curriculum and interviews with staff confirm Seaside Center is compliant with this standard.

- Does Not Meet Standard** (*Requires Corrective Action*)

GEO Policy 5.1.2.A, Seaside policy 2015-6 and the PREA training curriculum were reviewed and address the requirement of this standard. Policies outline procedures to respond to an allegation of sexual abuse for both security and non-security staff. There is a GEO Incident Checklist to be used, when responding to sexual abuse or sexual harassment. Random interviews with security and non-security staff confirmed they were all very knowledgeable about what to do upon learning a resident was sexually abused, to include separating the alleged victim and abuser and preserving and protecting the crime scene. If the abuse occurred within a time that still allows for the collection of physical evidence, staff would request that the alleged victim and alleged abuser not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing their teeth, changing clothes, urinating, defecating, smoking, drinking or eating. #### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

GEO policy 5.1.2-E and the monthly and annual PREA Incident Tracking Log were reviewed and address the requirements of this standard. The policies require that an administrative or criminal investigation be completed for all allegations of sexual abuse and sexual harassment. Allegations are initially reviewed by the Seaside Center staff and promptly reported to the Alaska DOC and the GEO Office of Professional Responsibility. Seaside Center currently does not have a staff member trained in PREA specialized investigations. GEO conducts its investigations using uniform evidence protocols. Administrative Investigations of allegations received at the Seaside Center are performed by a GEO staff member who has been trained in PREA Specialized Investigations and assigned from the regional office in Anchorage. If the

allegation involves potentially criminal conduct, it is referred to Nome Police Department. GEO's investigative policy is available on the GEO website.

There were no reported allegations of sexual abuse and/or sexual harassment, during the past twelve months. The auditor reviewed a previous year investigation conducted by the Nome Police Department that was recently closed. The auditor found the investigation report to include a description of the incident, the evidence collected and summaries of interviews. The finding of this criminal staff-on-resident investigation was unsubstantiated. There were no substantiated allegations that were referred for criminal prosecution.

The GEO investigator interviewed stated that they collect the appropriate direct and circumstantial evidence, review the video tapes and interview the alleged victim, suspected perpetrators and witnesses. They also review prior complaints and reports of sexual abuse involving the suspected perpetrator. All investigations are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. The Investigator also stated that the credibility of the victim, suspect, or witness is always assessed on an individual basis. Polygraphs are not used in PREA investigations. The investigator provided documentation of annual PREA training and the GEO specialized training for PREA investigators. This is a very extensive training program. When conducting administrative investigations, the investigators always decide whether actions on the part of staff members or their failure to act contributed to the abuse.

The departure of the alleged abuser or victim from the employment or control of the Seaside Center or agency shall not provide a basis for terminating an investigation. Per policy, GEO retains all written investigation reports for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

A review of policy, the training curriculum and an investigative file, as well as an interview with Investigator confirm Seaside Center is compliant with this standard.

GEO policy 5.1.2.A and Seaside Center policy 2015-6 were reviewed and address the requirement of this standard. Policies state resident victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners

according to their professional judgment; and resident victims of sexual abuse while incarcerated shall be offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. Seaside Center has no full or part time medical/mental health practitioners. All medical and mental health referrals are made to off-site providers. The services are provided at no cost to residents, regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. Forensic examinations are done for up to 72 hours from the time of the incident.

Staff members were aware victims of alleged sexual assaults are sent to an outside medical facility for services and a forensic examination by a SAFE/SANE, when necessary. There were no forensic examinations conducted in the past 12 months.

GEO Policy 5.1.2-A and Seaside policy 2015-6 were reviewed and address the requirements of this standard. Policies identify the minimum members of the review team and cover the process for sexual abuse incident reviews, to include the form the review team uses. The form addresses whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the institution; whether physical barriers in the area may enable abuse; the adequacy of staffing levels in that area during different shifts; and whether monitoring technology should be deployed or augmented to supplement supervision by staff.

The facility conducts a sexual abuse incident review at the end of every investigation that was substantiated or unsubstantiated. The auditor reviewed a completed PREA After-Action Review Report. The review occurred within 30 days of the conclusion of the investigation. The review team included the Facility Director with input from the Supervisor and Investigator. GEO has an excellent PREA after-action review form that addresses all elements of the standard. Incident review team members were interviewed and were very knowledgeable of the process.

A review of policies and the completed incident review form and interviews with the Facility Director and incident review team member confirms Seaside Center is compliant with this standard.

GEO collects accurate uniform data for every allegation of sexual abuse at facilities under its control using standardized instruments. GEO facilities provide monthly and annual PREA Incident Tracking Reports and PREA Surveys to GEO headquarters. Per conversation with the PREA Coordinator, the data is aggregated. Upon request from DOJ, GEO provides the data. GEO does not contract its residents to other facilities (115. 87 (e)).

The GEO website has PREA audit reports, which are either the first or a recertification audit, posted for 120 facilities. This is the first PREA audit of the Seaside Center.

The auditor was given access to and an opportunity to tour and visit all areas of the facility. The auditor was provided with an office that ensured privacy in conducting interviews with residents and staff, during the on-site visit. Notice of the PREA audit was posted on August 9, 2018.
